Exciting Changes in 2017!

Practical hypnosis skills: How to construct therapeutic goals and suggestions

Introductory Workshop: Learn to use hypnotic language for therapeutic suggestions during patient encounters

Intermediate Workshop: Spotlighting Practical Skill Building: How to determine specific goals and create hypnotic suggestions

- **Highlighting our Senior Faculty as the New Keynote Presenter!**

Leora Kuttner, PhD, clinical psychologist, has received numerous international awards for her leadership in the field of pediatric pain management and palliative care. Dr. Kuttner will be offering a Mini-Intensive session on **Hypnosis Skill Development: Establishing a Sleep Ritual with Hypnosis during the 2017 Intermediate Workshop**. Dr. Kuttner developed this intervention for older children and teens whose health recovery was impeded by chronic disruptive sleep patterns. Her goal-focused approach is practical, systematic, and effective.

Dr. Kuttner is a Clinical Professor of Pediatrics, University of British Columbia and British Columbia Children's Hospital, Vancouver, Canada. She is the Vice-President, Canadian Society of Clinical Hypnosis (BC Division). Dr. Kuttner is on the Scientific Planning Committee for the International Hypnosis Society's 2018 conference in Montreal. She is globally renowned for her clinical and teaching expertise and is an award-winning author, including two texts, ([A Child in Pain: What Health Professionals Can Do To Help](#) [2010] and [A Child in Pain: How to Help, What to Do](#) [1996, 2008]) as well as numerous writings featuring hypnosis. Dr. Kuttner is also a prolific filmmaker and has received Media Awards for Best Professional/Medical film and Best Documentary film.

- **Five new choices for Mini-Intensive Tutorials: Hypnosis Skill Development (now 90 minutes each!)**

DESCRIPTION OF WORKSHOPS

These intensive workshops feature a combined lecture-demonstration-experiential training format with a developmental perspective in the use of clinical hypnosis and its empirically supported applications to children and teens experiencing various medical and mental health conditions and challenges. Cutting edge presentations include videos of faculty case vignettes that highlight therapeutic communication, hypnosis strategies, and self-hypnosis.

- Our multi-disciplinary faculty, who are seasoned pediatric clinicians with expertise in the use of pediatric hypnosis, include the most renowned leaders-teachers-researchers-authors in this field.
- The workshops are offered at three levels (Fundamentals, Utilization & Clinical Applications, Individualized Consultation) to licensed pediatric clinicians with advanced degrees and full-time trainees working toward a clinical license.
- Very strong emphasis is placed on experiential learning, (i.e. activities during presentations, and extensive supervised practice of hypnotic techniques) within supportive small groups with a high faculty to trainee ratio.
- Registration fees for the three workshop levels include course presentations, small group exercises, an extensive bibliography, a complimentary cocktail reception, hearty continental breakfasts, and generous morning and afternoon refreshments.

ELIGIBILITY AND TARGET AUDIENCE

Workshop participation requires an active clinical license AND one of the following:

- Doctoral Degree in Medicine, Psychology, Nursing or Dentistry
- Masters Degree in Social Work, Marriage and Family Therapy, Clinical or Counseling Psychology
- Masters Degree in Nursing or a Registered Nurse with a Masters Degree and subspecialty training or certification (e.g. APRN, CPNP, CNS)
- Other Advanced degree clinicians (e.g. Occupational & Physical Therapists, Speech & Language Pathologists, et al.)
- Child Life Specialists holding a Doctoral, Masters, or Bachelors degree
- Full-time Interns/Residents/Fellows or Graduate Students enrolled in an accredited program leading to these clinical degrees will be accepted when they provide a letter from their department on letterhead, attesting to their current full-time status, specifying timing of training (month and year).

FUNDAMENTALS OF PEDIATRIC CLINICAL HYPNOSIS (Introductory) WORKSHOP:

This workshop is for clinicians who have NOT YET completed a prior pediatric-specific hypnosis training (20+ hours).

- Basic skill-building in hypnosis as therapeutic communication and adjunctive intervention for children/teens experiencing a variety of clinical conditions.
- Ideal for clinicians wanting a refresher or solidification of confidence in fundamental hypnosis skills.
- Clinical focus: management of pediatric pain, anxiety, and sleep.
- Instructional videos and case vignettes: integral components of all presentations.
- Experiential learning is a critical component: double the amount offered in most introductory hypnosis workshops. Activities include: large group exercises and supervised small group practice (typically a 6:1 trainee: faculty ratio) focused on the structure and elements of clinical hypnosis with children/teens, explaining hypnosis to parents and children, and the use of self-hypnosis.

INDIVIDUALIZED CONSULTATION (Advanced) WORKSHOP: Personalized and Peer Mentoring

- Provides extensive, individualized mentor consultation to health care practitioners interested in enhancing their knowledge and expertise in the use of pediatric hypnosis.
-
- Fulfills partial requirements for attaining ASCH Certification in Clinical Hypnosis and/or an ASCH-Approved Consultant.
- Unique format: Clinicians consult in a small group (max = 6) with rotating faculty facilitators (ASCH Approved Consultants).

This model encourages and expects participants to learn from one another and to have their own expertise affirmed and expanded. During the consultation sessions, the focus is upon issues unique to each practitioner's specialties and practice as reflected in their video submissions. Advanced participants must present a video-recording of hypnotic work with a pediatric patient and a corresponding typed case vignette of the video.

The firm deadline for video submission is **July 1, 2017**. A "how to" guide to help learners develop effective video recordings will be provided. Prior to registering for this workshop, a required application must be submitted for review, click here <https://tinyurl.com/nphti2017> and select "**Application**". Upon acceptance of your application, you will be contacted with registration instructions.

Name of Workshop: **National Pediatric Hypnosis Training Institute (NPHTI)
Annual Skill Development Workshops in Pediatric Clinical Hypnosis**

Dates: **October 19-21, 2017**

Location: **Crowne Plaza Minneapolis West
3131 Campus Drive
Plymouth, MN 55441**

The undersigned acknowledges that he/she has volunteered to participate in a workshop in which he/she engages in a hypnotic state ("trance"), and that workshop participants and faculty will be present during this/these session(s).

The undersigned does not have any medical or mental health problems or other special conditions that might interfere with their participation, except as have been disclosed to faculty members.

Because this is a Skills Development Workshop, all participants are expected to attend the **ENTIRE** workshop and participate in experiential activities, including trance experiences. Exceptions are not permitted.

The undersigned understands that Continuing Education Certificates are distributed at the completion of the workshop: *please plan your travel accordingly*. In addition, an optional (for purchase) pre-ordered **Certificate of Participation**, (suitable for framing) is provided only to those attending the FULL program and must be picked up at the conclusion of the workshop.

The undersigned acknowledges that NPHTI reserves the right to withdraw from participation in the training workshop any clinician whose behavior significantly interferes with the group's learning process, or is disrespectful and/or offensive to colleagues and/or faculty.

The undersigned agrees to hold harmless the NPHTI, MSCH, and the University of Minnesota Department of Pediatrics and Fairview Health Services their employees and members, the faculty and other participants in the above described workshop, and indemnify them from and against any and all claims, damages, and costs arising from the undersigned's participation in the above described workshop.
