“Helping Children & Teens to Help Themselves”

ANNOUNCES A VIRTUAL INDIVIDUALIZED CONSULTATION WORKSHOP

October 28-30, 2021

In Collaboration with
Minnesota Society of Clinical Hypnosis
University of Minnesota Department of Pediatrics

Sponsored by Minnesota Medical Association

Highlights for this workshop

- Individualized consultation by our renowned faculty
- A personalized, professional experience to enhance your hypnosis skills.
- Participating in peer to peer consultation in addition to individualized consultation.
- Participate from the comfort of your own office, home or backyard!

WHAT?

NPHTI, the premier Pediatric Hypnosis Training Organization in North America, announces its annual gathering. The workshop is devoted to individualized consultation to enhance your skills in a collegial small group with like-minded professionals and supportive faculty mentor-facilitators.

WHO?

Since 2010 NPHTI has trained over 1000 licensed pediatric professionals with advanced clinical degrees, including mental health professionals, physicians, nurse practitioners, dentists, occupational and physical therapists, speech and language pathologists, and child life specialists. We especially welcome full-time trainees working toward an advanced clinical license in one of these fields. Pediatric clinicians with Fundamentals, Utilization (Intermediate) Workshop training in Pediatric Clinical Hypnosis and extensive clinical hypnosis practice experience with children and/or teens are encouraged to apply to participate in this experience.

WHY?

Come together to charge-up or recharge your capabilities in clinical hypnosis. Enhance your skills. Connect (or re-connect) with colleagues! Chat with the experts!

HOW?

Carve time for a hard-earned respite while absorbed in NPHTI's curricular focus on *experiential* learning and individualized consultation.

WHEN?

Thursday-Saturday, October 28-30, 2021

RSVP ASAP!

Register now: Space is limited. XXXXXXXXXX

INDIVIDUALIZED CONSULTATION WORKSHOP: Personalized and Peer Mentoring

- Provides extensive, individualized mentor consultation to clinicians ready to enhance their knowledge and expertise in the use of pediatric hypnosis.
- Fulfills partial requirements for attaining ASCH Certification in Clinical Hypnosis and/or an ASCH-Approved Consultant.
- Unique format: Clinicians consult in a small group (max = 6) with rotating faculty facilitators (ASCH Approved Consultants).

In addition to thoughtfully-matched faculty consultation, this model expects participants to learn from one another and to have their own expertise affirmed and expanded. During the consultation sessions, the focus is on issues unique to each practitioner's practice as reflected in their video submissions. Participants must present a video-recording of hypnotic work with a pediatric patient and a corresponding typed case vignette of the video.

A firm deadline for video submission is July 21, 2021. A "how to" guide to help learners develop effective video recordings will be provided. Prior to registering for this workshop, a required application must be submitted for review. See instructions below.

REGISTRATION * ONE REGISTRATION FEE FOR 2021!! *****

Registration Deadlines & Fees

Registrations will not be accepted
after July 21, 2021
\$899

Workshop Registration Fee

TO REGISTER FOR THE INDIVIDUALIZED CONSULTATION WORKSHOP

Go to: <https://iplanit.swoogo.com/NPHTI2021> to complete the Prior Learning/Needs Assessment. Early registration is encouraged to reserve your place and facilitate faculty planning. Register online with Visa, MasterCard, or American Express

NOTE: Participants are not considered registered until registrant information is complete and payment is received. Please note that payment must be sent no later than 2 weeks after registration/acceptance.

QUESTIONS: For any questions relating to registration, please contact NPHTI@iplanitmeetings.com or call 1-800-781-1193, ext. 601 between 8 am-5 pm Mountain Time.

ELIGIBILITY AND TARGET AUDIENCE: Requires an active clinical license AND one of the following:

- Doctoral Degree in Medicine, Psychology, Nursing or Dentistry
- Masters Degree in Social Work, Marriage and Family Therapy, Clinical or Counseling Psychology
- Masters Degree in Nursing or Advanced Practice Registered Nurses (i.e. CPNP, CNS)
- Other Advanced degree clinicians (e.g. Occupational & Physical Therapists, Speech & Language Pathologists)
- Child Life Specialists holding a Doctoral, Masters, or Bachelors degree
- Prior Fundamentals/Introductory 3-day Workshop training in Pediatric Hypnosis AND prior Utilization & Clinical Applications (or "Intermediate") Level pediatric hypnosis training from NPHTI, SDBP or comparable training provided by any NPHTI faculty.
- A current license to practice one's specialty in their home state, province or territory.
- Active clinical practice of hypnosis with children (preferably "regular" such as weekly or more often)
- **Application requires submission of a video-recording of hypnosis work with a patient between 30" to 45" in length submitted before July 21, 2021**, accompanied by goals and objectives for the hypnosis sessions with your patient, learning objectives for this workshop, and narrative summary of the case along with time-stamp indications in the video where discussion and recommendations are specifically requested. Each approved applicant will have a half-day (3.5 hours) devoted to review and discussion of the video of their patient/client by peer participants (up to 5 colleagues) and the faculty specifically selected to be paired with them. There will be a maximum of 6 participants admitted to this 3-day virtual workshop.

CANCELLATION POLICY

In the event you need to cancel your registration, the registration fee, less a \$50 administrative fee per registration, will be refunded if you notify Registration Services in writing at nphti@iplanitmeetings.com by 4:30 p.m. Central Time on **October 1, 2021**. No refunds will be made after this date.

ACCREDITATION

Minnesota Medical Association/PRA

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Minnesota Medical Association. The Minnesota Medical Association (MMA) is accredited by the ACCME to provide continuing medical education for physicians.

The Minnesota Medical Association designates this live activity for a maximum of 20.5 AMA PRA Category 1 Credits™ for the Individualized Consultation Workshop. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Please note that the maximum credits are listed are based on the maximum of attendees. Total credits will vary depending upon final number of attendees for this particular workshop.

Applications have been sent to various accreditation organization and will be updated on this page as approvals are obtained.

Please note:

Nurse practitioners, Advanced Practice Nurses, dentists and other health care professionals who participate in this CE activity may submit their Statements of Participation to their appropriate accrediting organizations or state boards for consideration of credit. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.

NEW!

**Practical Strategies and Applications
Virtual Workshop**

November 5-6, 2021

**In Collaboration with
Minnesota Society of Clinical Hypnosis
University of Minnesota Department of Pediatrics**

Sponsored by Minnesota Medical Association

MINNESOTA
MEDICAL
ASSOCIATION

Highlights for this workshop

- ***NEW virtual workshop with new strategies and application to your clinical practice!***
- **7 practical workshop presentations by world-renowned faculty!**
- **3 Facilitated Small Group Case Discussions with Faculty Consultation!**
- **Bring your challenging cases for peer and faculty mentoring!**

WHAT?

NPHTI, the premier Pediatric Hypnosis Training Organization in North America, announces its first multi-day virtual workshop! You will have the opportunity to have group case discussions in a collegial small group with like-minded professionals and supportive faculty mentor-facilitators (a 4:1 ratio).

WHO?

Since 2010 NPHTI has trained over 1000 licensed pediatric professionals with advanced clinical degrees, including mental health professionals, physicians, nurse practitioners, dentists, occupational and physical therapists, speech and language pathologists, and child life specialists. We especially welcome full-time trainees working toward an advanced clinical license in one of these fields. Pediatric clinicians—from the novice to the nimble—are invited to develop or hone skills in clinical pediatric hypnosis taught by seasoned multi-disciplinary faculty who include the top experts in the field.

WHY?

Come together to charge-up or recharge your knowledge in clinical hypnosis. Review setting individualized goals and goal-driven hypnotic suggestions with your pediatric patients! Connect (or re-connect) with colleagues! Chat with the experts!

HOW?

Carve time for a hard-earned respite while absorbed in NPHTI's new virtual workshop focused on practical strategies and applications. Rally your professional friends to register as well and attend from the comfort of your office, home or backyard to tune in virtually!

WHEN?

Friday - Saturday, November 5-6, 2021

RSVP ASAP!

Register quickly as there are limited seats available in order to provide adequate attention to the small group work during the virtual workshop.

Click here to register: <https://iplanit.swoogo.com/NPHTI2021>

NATIONAL PEDIATRIC HYPNOSIS TRAINING INSTITUTE

a 501(c)(3) nonprofit educational corporation

DESCRIPTION OF WORKSHOP

This intensive workshop features a combined lecture-demonstration-small group educational format with a developmental perspective in the use of clinical hypnosis & its empirically supported applications to children and teens with various medical & mental health conditions and challenges. Both research-based and pragmatic hypnotic interventions are taught.

- **Cutting edge presentations** highlight therapeutic communication, re-framing, suggestions and other hypnosis strategies.
- **Faculty:** Our multi-disciplinary, seasoned pediatric clinician-teachers with expertise in pediatric hypnosis include the most renowned leaders-teachers-researchers-authors in this field.
- **Case focused small group sessions:** Facilitated small group case discussions with Peer and Faculty Consultation and focused on different topics each time with a high faculty-to-trainee ratio. (1:4)

ELIGIBILITY AND TARGET AUDIENCE: Requires an active clinical license AND one of the following:

- Doctoral Degree in Medicine, Psychology, Nursing or Dentistry
- Masters Degree in Social Work, Marriage and Family Therapy, Clinical or Counseling Psychology
- Masters Degree in Nursing or Advanced Practice Registered Nurses (i.e. CPNP, CNS)
- Other Advanced degree clinicians (e.g. Occupational & Physical Therapists, Speech & Language Pathologists)
- Child Life Specialists holding a Doctoral, Masters, or Bachelors degree
- Full-time Interns/Residents/Fellows or Graduate Students enrolled in an accredited program leading to these clinical degrees will be accepted when they provide a letter from their department on letterhead, attesting to their current full-time status, specifying timing of training (month and year).
- **MUST HAVE:** Completed a Fundamentals/Introductory Level 3-day Workshop Training in Pediatric Hypnosis from NPHTI, SDBP or comparable workshop training provided by any NPHTI Faculty.
- Minimum of some active clinical practice of hypnosis with children.
- Bring 2 clinical cases from your practice (narrative only, no longer than 1/2 to 3/4 of page, no recordings please) that you wish to discuss, get ideas, suggestions, recommendations from peers and faculty.

Connecting clinicians while stretching knowledge in integrative care!
Small Group Work.
Renowned Faculty!

PRACTICAL STRATEGIES AND APPLICATIONS VIRTUAL WORKSHOP

NOTE: Participants must have completed a Fundamentals all pediatric-specific hypnosis training workshop (20+ hours), and are using clinical hypnosis with pediatric patients. We welcome any and all who are licensed health professional, and have completed a Fundamentals all-pediatric-specific Hypnosis Training Workshop (20+ hours) with NPHTI, SDBP, or equivalent approved Pediatric Hypnosis Workshop.

REGISTRATION

No refunds will be made after this date.

Why attend NPHTI's virtual workshop?

Here is what other NPHTI virtual attendees are saying...

"Today's presenter, as well as the previous ones, gave excellent presentations that address innovative perspectives that work well across levels of training/expertise in use of hypnosis with children. The presentations have all been put together with using tone, language, metaphor and suggestions (including visuals) to be living examples of using hypnotic communication. Really a wonderful webinar series! "

"Dr. Keating is such a mensch. He makes learning safe. A good model for all."

"Good selection of specific content to be able to cover it in given time in a thoughtful and engaging way to enhance learning."

ACCREDITATION

Minnesota Medical Association/PRA

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Minnesota Medical Association. PRACTICAL STRATEGIES AND APPLICATIONS VIRTUAL WORKSHOP

Educational Objectives

At the completion of this workshop, learners should be better able to:

- Express increased clinical usage and practice of hypnosis and hypnotherapy. Child health care learners will become increasingly facile with, more competent in, and more confident with their increased use and application of hypnotic approaches, thinking, and strategies to help patients help themselves.
- Be able to put new ideas and strategies to work with their patients and clients and in so doing will both expect and discover that their patients report more comfort and less discomfort sooner and lasting longer than prior to their addition of these self-hypnotic approaches to their clinical skill sets.
- Implement new and innovative strategies beyond their prior hypnosis skill set, notably with patients and clients with common problems, and will find that these patients experience relief more quickly and lasting longer than before the addition of self-hypnosis to their clinical skills.
- Seek additional, new and evolving of additional understanding and skill development in the arena of hypnotic pain management and pain control; as well as other common disorders and their diagnosis and management with hypnosis.

AGENDA

***times listed below are based on Central Daylight Time Zone*

Friday, November 5, 2021

10:00 - 10:15 am	Introduction – Virtual Workshop Overview
10:15 - 11:10 am	Hypnosis by Any Other Name
11:15 - 12:10 pm	How We Talk is How We Think is How We Feel is How We Act is How We Heal
12:10 - 12:45 pm	Lunch Break
12:45 - 1:45 pm	#1 Facilitated Small Group Case Discussions with Peer Consultation
1:50 - 2:45 pm	Utilizing Conversational Hypnosis
2:50 - 3:45 pm	Pain: Re-Framing From the Start
3:45 - 4:00 pm	Questions, Answer, Discussion, Wrap Up

Saturday, November 6, 2021

10:00 - 10:45 am	Finding Hypnosis in the Encounter
10:45 - 11:55 am	#2 Facilitated Small Group Case Discussion with Peer Consultation
